

Winkhaus FAB Slave Door Locks

For PVCu, Aluminium, Timber and Composite Doors

Shootbolt keep rails with integrated shootbolts

The Winkhaus FAB slave door lock range provides a high security locking option WITHOUT the need for a security Kitemark cylinder, cylinder guard or a security handle. Operated by a flush, integrated two way lever the FAB slave lock throws two heavy duty 20mm shootbolts into the head and cill. Combined with the renowned Cobra[™] or Trulock⁺ Multi-Point lock on the master door the locking hooks penetrate the FAB Slave lock to secure the two leafs together. No additional hook keeps are required. Substantial shootbolt keeps have +/- 2mm of adjustment for ease of operation.

Unlike conventional PVCu Double doors a dummy mullion is not required which can dramatically reduce sightlines. The FAB system requires doors with opposing eurogrooves.

With a size range from 1853mm to 2781mm the flexibility is exceptional and is ideally suited to the trend towards taller French doors and for main entrance doors with a operating side panel. These types of doors are being increasingly specified for wheelchair access or for moving large pieces of furniture in or out of the building.

- · An attractive alternative to normal slave door locks.
- Secure U26 keep rail with 20mm long laminated steel top and bottom shootbolts.
- Easily operated by the convenient operating lever.
- · Quickly installed in the slave leaf of double doors (Requires doors with opposing eurogrooves).
- Removes the need to handle and cylinder.
- · Ideal for double doors with irregular sash widths.
- Variants to suit Winkhaus standard, short and tall (3 Hook) locks.
- · Integral bottom shootbolt giving 1050mm handle height.
- To suit sash heights 1853 2781mm.
- SKG **

Shootbolt keep rail U26-BN13-60 MV2 with integrated shootbolts

Specification for standard doors, variant 60

The FAB flushbolt keep rail is designed for French door systems with opposing eurogrooves

- (1) STV lock (variant 60 standard height)
- (2) FAB Flushbolt keep rail
- (3) Shootbolt (croppable)
- (4) Shootbolt Keep
