

# Tensorgrip L12

## OVERVIEW

**TENSORGRIP L12** is a fully portable adhesive system. It may be used to form high-strength bonds to particle board and MDF substrates. Plywood, many plastics and a wide range of other materials may also be bonded easily using **TENSORGRIP L12**.

## FEATURES

**ADJUSTABLE GUN** allows you to control the unique spray pattern preventing wastage.

**UNIQUE FORMULA** prevents soak in of the adhesive on porous surfaces. This provides the user very high coverage and superior film build, resulting in stronger bonds.

**LOW ODOUR** combined with the fast tack time makes this premium adhesive suitable for on-site and factory applications.

Adhesives That Outperform

# L12

THE ULTIMATE  
SPRAY ADHESIVE

# L12

## SPEED

This highly engineered adhesive canister increases the speed of your production and will reduce down time with faster application speeds by reducing the reliance on mechanical fastening and wet glues in the applications of curved structure building. Bonding MDF and flexi-ply on curved structures has been proven to take up to 48hrs of processing time whilst waiting for adhesive to cure.

## POWER

With its incredible high-tack adhesive performance, **L12** has unrivalled bonding power and reduces the need for mechanical fixings when building curved structures, counters, creating thicker worktops or backing up Corian or solid surface. The power of **L12** provides immediate results on the most demanding applications.

## VALUE

**TENSORGRIP L12** gives superior value for money because you don't get any waste product. The canister pick up tubes goes right to the base of the canister giving you complete adhesive content delivery; no open tins, so no cured adhesive in the tins when the lid is left off. **TENSORGRIP** is a completely sealed system.

Bringing to life the unique co-rez technology

**CO-REZ** technology is an exceptional formulation development incorporating a highly engineered resin and gas matrix, creating an exceptional "greater coverage, less weight" formula. The result is an unparalleled increase of up to 25% extra coverage per unit, together with a 2-3 kilogram decrease in weight per canister system, making this technology a market leader. **CO-REZ** technology will revolutionise adhesive performance and user experience.
